

RAIN GARDEN PRICELIST 2023

Intelligent garden solutions

roto
since 1949

Roto, an international company based in Murska Sobota, specialises in the production of plastic mass. The roots of the family-run business go back to 1949. ROTO employs more than 550 people in 8 factories located in 4 countries. Roto generated revenues of €83 million in 2021, selling products in 65 countries around the world.

Roto is Europe's leading rotomoulding company, producing more than 4,000 different products. The company's development is ensured by continuous innovation, new technologies and materials that ROTO develops with scientific institutes, universities and other companies.

The Roto-branded product groups are divided into four segments: products for agriculture, garden, sport and ecology. The use of composites and biodegradable and recycled polymers enables the production of the most complex products on the market.

EY world
family award

Roto also manufactures a wide range of readymade products for various industries such as automotive, marine, construction and agricultural machinery, aquaculture and logistics. Added value comes from innovative design, the use of intelligent polymers and composites, and state-of-the-art manufacturing.
